B.Tech, Electronics and Communication Engineering

Address : VOC Street, Tirumalai nagar, Ramapuram, Chennai

Summary

Dedicated B.Tech student in Electronics and Communication Engineering with strong fundamentals in embedded systems, digital signal processing, and communication systems. Experienced in microcontroller programming using C++ and Python, along with hands-on skills in circuit design, sensor interfacing, hardware debugging, and electronic system simulation using tools such as Multisim and Arduino platforms. Possess practical project experience integrating both hardware and software aspects of electronics, enabling strong analytical thinking and effective problem-solving in real-world engineering scenarios. Passionate about applying core electronics concepts to develop efficient and innovative electronic and communication systems. Seeking opportunities in core ECE industries where I can contribute my technical knowledge and continue developing advanced engineering solutions.

Education

SRM IST-Ramapuram

B.Tech · Electronics and Communication Engineering

2027

CGPA - 9.86/10

Subramanian Sasthriyar Higher Secondary School

Class XII - Tamilnadu · PCM · Arni

2023

Percentage - 86.6%

Cluny Martic Higher Secondary School

Class X - TAMIL NADU BOARD OF SECONDARY EDUCATION · SMS · Devikapuram

2021

All Pass

Experience

Infocus Electronics Technology | [Internship Certificate](#)

Jul 2025 - Jul 2025

Intern · Electronics Manufacturing Intern · Internship

Chennai

- Completed a 15-day internship and gained exposure to electronics manufacturing processes.
- Worked across departments to understand workflow, production, and operational systems.
- Developed practical knowledge of industrial processes and professional work environment.

Ayuzera Pvt Ltd

Jul 2023 - Mar 2024

Marketing team · Team Lead · Intern

- Planned, executed, and managed strategic marketing initiatives for health and wellness products and services.
- Led a team of marketing professionals to develop and implement multi-channel campaigns.
- Collaborated with cross-functional teams to drive brand awareness, customer engagement, and business growth.

NoviTech R&D Private Limited | [Internship Certificate](#)

Jun 2025 - Jul 2025

Artificial Intelligence Intern · Intern · Internship (Online)

Remote

- Completed a one-month online internship in Artificial Intelligence.
- Learned AI concepts, machine learning basics, and data processing techniques.
- Improved Python programming and problem-solving skills through practical tasks.

Beau Roi Technologies Private Limited | [Internship Completion Letter](#)

Jun 2025 - Oct 2025

Intern · Web Developer · Internship

Chennai

- Successfully completed internship with contributions to assigned projects and tasks.
- Demonstrated teamwork, proactive attitude, and willingness to learn.
- Gained practical industry experience and professional work exposure.

Chennai Port Authority | [Inplant Training Certificate](#)

Dec 2025 - Dec 2025

Vocational Inplant Trainee · Trainee · Training

Chennai

- Completed vocational inplant training at Chennai Port Authority in the Mechanical and Electrical Engineering Department.
- Gained practical exposure to electronic data processing systems and industrial electrical infrastructure used in port operations.
- Observed maintenance and operational procedures of electrical and electronic equipment used in large-scale industrial environments.

Projects

Real-Time Passenger Monitoring and Safety System | [Project PPT](#)

Jan 2025 - Present

Academic Project · Arduino, C/C++, Firebase Realtime Database, IoT

Embedded Systems / IoT

Communication, Sensors (Load Sensor / IR / Ultrasonic), Serial Communication

- Developed a real-time passenger monitoring and safety system using embedded sensors and microcontroller programming to track passenger occupancy.
- Integrated sensor data with a cloud-based database (Firebase) for real-time monitoring and safety alerts when passenger limits are exceeded.
- Implemented hardware–software integration to improve passenger safety and enable efficient monitoring in transportation systems.

Solar-Powered Hybrid Vehicle

Jan 2025 - Jan 2025

Academic Project · C++

Renewable Energy Systems, Sustainable Transportation, Electric Vehicles (EV)

- Designed a hybrid vehicle system powered by solar panels and grid-rechargeable batteries.
- Integrated a battery management system to efficiently store and use solar energy.
- Aimed to reduce carbon emissions and reliance on fossil fuels through sustainable energy use.

LiFi Communication System Simulation | [Project Report](#)

Mar 2026 - Mar 2026

Academic Project · Simulink

Communication Systems / Wireless Communication

- Designed and simulated a LiFi communication system for high-speed wireless data transmission using visible light.
- Analyzed transmitter and receiver performance using communication system concepts.
- Improved understanding of optical communication and signal processing techniques.

Awards

First Prize | [Award Certificate](#)

Oct 2025

Department of Electronics and Communication Engineering · Digital

Communication and Design Club, SRM Institute of Science and Technology

- Presented an innovative technical concept in the field of electronics and communication engineering.
- Demonstrated strong research, presentation, and technical communication skills during the competition.

Second Prize | [Award Certificate](#)

Oct 2024

Department of Electronics and Communication Engineering · IETE – ECE

Department, SRM Institute of Science and Technology

- Secured Second Prize in ELECTRANOVA event conducted by IETE – ECE department.
- Participated in a technical competition showcasing problem-solving and engineering skills.
- Demonstrated teamwork and technical knowledge in electronics-based challenges.

Best Paper | [Certificate of Achievement](#)

Sept 2025

The Institute of Engineers(India), Incorporated by Royal Charter · SRM Institute of Science and Technology, Ramapuram

- Presented “Dynamic Bus Load Control and Safety System”, recognized for innovation in smart transportation and passenger safety.
- Showcased expertise in embedded systems, IoT integration, and real-time monitoring for practical transport solutions.

Third Prize - SaRaM Project Expo-2025

Jan 2025

SaRaM Project Expo-2025 · SRM University

- Third Prize – Project SaRaM, Project Expo 2025 for “*Dynamic Bus Load Detector*” under the Industry 4.0 domain
- Recognized for innovation in embedded systems and real-time load monitoring for public transport
- Evaluated based on technical implementation, societal impact, and presentation clarity

Second Prize – | [Award Certificate](#)

Oct 2025

Department of Electronics and Communication Engineering · Digital

Communication and Design Club, SRM Institute of Science and Technology

- Secured Second Prize in Tech Talk at TINKATHON 2025.
- Presented technical concepts effectively in a competitive environment.
- Demonstrated strong communication and presentation skills.

Certifications

Leadership | [Certificate](#)

Aug 2024

Lions Club International

- Developed leadership, communication, and team coordination skills through real-time group activities.
- Learned to plan, organize, and execute service-oriented community projects effectively.
- Recognized for commitment to youth-led leadership and social responsibility.

Certificate Of Participation | [Certificate](#)

Oct 2024

KPR Institute of Engineering and Technology

- Participated in a national-level hackathon focused on Generative AI applications and innovation.
- Collaborated with peers to design AI-based solutions addressing real-world challenges.
- Enhanced skills in teamwork, creative problem-solving, and AI-driven development.

TECHNO-A-THON 2025 – National Level Hackathon Participation | [Certificate of Participation](#)

Sept 2025

St. Joseph’s College of Engineering, Chennai

- Participated in TECHNO-A-THON, a 24-hour National Level Hackathon.
- Worked on innovative problem-solving in a competitive environment.
- Enhanced teamwork, technical, and time-management skills.

Volunteering

Leo Club Of Sterling Society

Sept 2023 - Jul 2025

Treasurer · Leadership through community service

- Managed club finances, budgeting, and expense tracking to support community service initiatives.
- Coordinated with executive members to allocate funds effectively for events, campaigns, and outreach programs.
- Promoted transparency and accountability while contributing to youth-led leadership and service development.

National Service Scheme

Aug 2024 - Jul 2025

Student Co-Ordinator · Community Service

- Led and coordinated student participation in community outreach, awareness campaigns, and service activities.
- Promoted social responsibility and civic engagement through organized events and volunteer mobilization.
- Acted as a liaison between faculty and volunteers to ensure smooth execution of NSS programs.

Conferences and Workshops

STM32 Workshop

Sept 2024

Digital Communication and Design Club · SRM Institute of Science and Technology

- Gained hands-on experience with STM32 microcontroller programming and development tools.
- Enhanced understanding of embedded system design and ARM Cortex-M architecture.

ITDECC 2025 (Innovators and Technological Development in Electronics, Computers and Communication) | [Certificate of Best Paper](#)

Sept 2025

ECE Dept, SRMST · Ramapuram Campus

Extra Curricular Activities

President - Digital Communication and Design Club

Jul 2025 - May 2026

- Led the Digital Communication and Design Club, organizing technical events and managing team activities.
- Coordinated and executed events like TINKATHON, improving student participation and engagement.
- Developed leadership, teamwork, and event management skills through active club operations.

Skills

Programming Languages: C++, Python, Python for Embedded Systems

Technical Skills: Internet of Things, Quality Control & Inspection, Embedded Systems Development, IoT System Development

Areas of Interest: Leadership, Marketing, Team Management, VLSI Design Basics

Hardware Skills: Soldering (SMT & THT), Circuit Design & Analysis, Sensor Interfacing, Hardware Debugging, Arduino Development

Languages and Frameworks: Presentation

Domain Knowledge: Problem Solving, Serial Communication (UART / I2C basics), Communication Systems Fundamentals

Design and Simulation Tools: Multisim Simulation

Tools and Technologies: Firebase Realtime Database

Languages

Tamil [Native Proficiency], English [Professional Working Proficiency], Hindi [Limited Working Proficiency], Japanese [Fundamental Proficiency], Telugu [Fundamental Proficiency]
