B.Tech, Electronics and Communication Engineering

Address : VOC Street, Tirumalai nagar, Ramapuram, Chennai

Summary

I am a dedicated and technically strong B.Tech student in Electronics and Communication Engineering, with hands-on experience in embedded systems, digital signal processing, communication systems, and microcontroller programming (C++, Python). My foundation in electronics is backed by practical skills in circuit design, sensor integration, debugging, and simulation tools such as ,Multisim, and Arduino platforms. I am also the founder of HermesVistara International, an export venture that reflects my leadership, problem-solving, and project management skills. Through my active involvement in the Digital Communication and Design Club, I've developed a balanced profile that combines technical excellence with creativity and collaboration. I am seeking opportunities in core ECE companies where I can contribute meaningfully to innovation and real-world applications in electronics and communication systems.

Education

SRM IST-Ramapuram	2027
B.Tech · Electronics and Communication Engineering	CGPA - 9.82/10
Subramanian Sasthriyar Higher Secondary School	2023
Class XII - Tamilnadu · PCM · Arni	Percentage - 86.6%
Cluny Martic Higher Secondary School	2021
Class X - Tamilnadu · SMS · Devikapuram	Percentage - 100%

Experience

Infocus Electronics Technology Link	Jul 2025 - Jul 2025
Intern · Electronics Manufacturing Intern · Full-time	Chennai
- Familiarized with Surface-Mount Technology (SMT) and Through-Hole Technology (THT) processes across various departments. - Observed and understood the complete flow of work in electronics manufacturing, including assembly, inspection, and quality control. - Gained practical insights into inter-departmental coordination and real-time production workflows in a manufacturing environment.	
Ayuzera Pvt Ltd	Jul 2023 - Mar 2024
Marketing team · Team Lead · Hybrid	Chennai
- Planned, executed, and managed strategic marketing initiatives for health and wellness products and services. - Led a team of marketing professionals to develop and implement multi-channel campaigns. - Collaborated with cross-functional teams to drive brand awareness, customer engagement, and business growth.	
NoviTech Pvt.Ltd Link	Jun 2025 - Jul 2025
Intern · Artificial Intelligence · Hybrid	Online
- Gained practical knowledge of AI concepts such as neural networks, decision trees, and model evaluation. - Developed skills in implementing intelligent systems using tools like Python and relevant AI libraries. - Strengthened problem-solving abilities through hands-on tasks and real-time AI applications.	

Projects

Dynamic Bus Load Detector Link Embedded Systems, IoT, Smart Transportation · C++	Jan 2025 - Jan 2025 Industry 4.0
- Developed a real-time monitoring system using load sensors and microcontrollers to measure total bus load. - Calculated the combined weight of the vehicle and passengers to detect overloading conditions. - Improved transportation safety by triggering alerts when safe weight limits were exceeded.	
Solar-Powered Hybrid Vehicle Renewable Energy Systems · C++	Jan 2025 - Jan 2025 Sustainable Transportation ,Electric Vehicles (EV)
- Designed a hybrid vehicle system powered by solar panels and grid-rechargeable batteries. - Integrated a battery management system to efficiently store and use solar energy. - Aimed to reduce carbon emissions and reliance on fossil fuels through sustainable energy use.	

Awards

Third Prize SaRaM Project Expo-2025 · SRM University	Jan 2025
- Third Prize – Project SaRaM, Project Expo 2025 for “<i>DynamicBus Load Detector</i>” under the Industry 4.0 domain - Recognized for innovation in embedded systems and real-time load monitoring for public transport - Evaluated based on technical implementation, societal impact, and presentation clarity	
Second Prize Certificate ELECTRANOYA-2024 · IETE-ECE Department	Oct 2025
- Won 2nd Prize in the Tech Talk event at <i>Electranova 2024</i>, organized by the IETE – ECE Department, SRM IST, Ramapuram. - Presented on the topic “The Role of Embedded Systems in Aerospace.” - Recognized for strong technical knowledge, clear communication, and impactful presentation skills.	
Best Paper Certificate The Institute of Engineers(India),Incorporated by Royal Charter · SRM Institute of Science and Technoloy,Ramapuram	Sep 2025
- Presented “Dynamic Bus Load Control and Safety System”, recognized for innovation in smart transportation and passenger safety. - Showcased expertise in embedded systems, IoT integration, and real-time monitoring for practical transport solutions.	
Third Prize Certificate EEE Dept · S.A Engineering College	Sep 2026
- Presented real-world applications of embedded systems and IoT for bus load management and safety. - Demonstrated problem-solving, research, and communication skills in a competitive forum.	

Certifications

Leadership Link Lions Club International	Aug 2024
- Developed leadership, communication, and team coordination skills through real-time group activities. - Learned to plan, organize, and execute service-oriented community projects effectively. - Recognized for commitment to youth-led leadership and social responsibility.	
Certificate Of Participation Link KPR Institute of Engineering and Technology	Oct 2024
- Participated in a national-level hackathon focused on Generative AI applications and innovation. - Collaborated with peers to design AI-based solutions addressing real-world challenges. - Enhanced skills in teamwork, creative problem-solving, and AI-driven development.	

- Gained understanding of key concepts such as network protocols, switching, congestion control, and routing.
- Strengthened foundational knowledge essential for careers in networking, telecom, and embedded systems.

Volunteering

Leo Club Of Sterling Society

Sep 2023 - Jul 2025

Treasurer · Leadership through community service

- Managed club finances, budgeting, and expense tracking to support community service initiatives.
- Coordinated with executive members to allocate funds effectively for events, campaigns, and outreach programs.
- Promoted transparency and accountability while contributing to youth-led leadership and service development.

National Service Scheme

Aug 2024 - Jul 2025

Student Co-Ordinator · Community Service

- Led and coordinated student participation in community outreach, awareness campaigns, and service activities.
- Promoted social responsibility and civic engagement through organized events and volunteer mobilization.
- Acted as a liaison between faculty and volunteers to ensure smooth execution of NSS programs.

Conferences and Workshops

STM32 Workshop

Sep 2024

Digital Communication and Design Club · SRM Institute of Science and Technology

- Gained hands-on experience with STM32 microcontroller programming and development tools.
- Enhanced understanding of embedded system design and ARM Cortex-M architecture.

ITDECC 2025 (Innovators and Technological Development in Electronics, Computers and Communication) | [Certificate of Best Paper](#)

Sep 2025

ECE Dept, SRMST · Ramapuram Campus

Extra Curricular Activities

Decoration Team Member

Mar 2025 - Mar 2025

- Acted as the Technical and Decoration Coordinator for TEXUS 2025, SRMIST Ramapuram.
- Oversaw all technical arrangements and ensured smooth operation of equipment and setups.

President

Sep 2025 - Jun 2026

- Leading the club in planning and executing technical workshops, competitions, and events to foster innovation and hands-on learning among students.
- Coordinating with team members, managing projects, and promoting collaboration to enhance the club's visibility and impact within the department

Skills

Programming Languages: C++, Python, Python for Embedded Systems

Technical Skills: Artificial Intelligence, Internet of Things, Quality Control & Inspection, Embedded Systems, Sensor Integration

Areas of Interest: Leadership , Marketing, Team Management, VLSI Design Basics

Hardware Skills: Soldering (SMT & THT), Circuit Simulation, Hardware Debugging

Languages and Frameworks: Presentation

Domain Knowledge: Circuit Analysis and Design

Languages

Tamil [Native Proficiency], English [Professional Working Proficiency], Hindi [Limited Working Proficiency], Japanese [Fundamental Proficiency], Telugu [Fundamental Proficiency]
